

SOCIAL JUSTICE SCHOOL

Organizational Overview:

The Social Justice Public Charter School (SJS) is a middle school serving students in the 5th-8th grade in Washington DC.

Our mission is to catalyze an integrated community of middle-school learners to be scholar-activists who are designers of a more just world. In order to design a more just world, our students require an education that embraces and lives out a set of core beliefs about what it means to be human.

The SJS Community will proudly reflect the diversity of America – racially and socioeconomically diverse, integrated, democratic, and problem-solving. Students, teachers, and parents develop a passion for social justice and are empowered to identify needs and enact change in their school, community, and the world. Our **academic model** is rooted in social justice, built around culturally responsive learning, keeps learning active through expeditionary learning, and empowers students with design thinking projects.

- A belief that young people have the capacity to change the world
- You’re passionate about the need for students from underserved communities to have access to behavioral and social-emotional support services
- You’re open to feedback, love working with a Crw, and
- You bring your best to everything you do.
- You look for joy in your day-to-day and want to work with others who do, too!
