I. ANNUAL REPORT NARRATIVE**School Description:****Mission Statement:**

Social Justice Public Charter School (SJS) will catalyze an integrated community of middle school students, 5th-8th grade, to be scholar-activists who are designers of a more just world.

School Program:

The Social Justice School is rooted in three Core Beliefs:

Core Belief #1: We believe that students, staff, and families are F.R.E.E.

At SJS, we believe that a more just world requires that well-informed, caring, and activated individuals are:

Fearless—in the face of injustice;

Relentless— in the pursuit of justice;

Empathetic—to the feelings, thoughts and experiences of others; and

Engaged—with heart and mind.

Core Belief #2: We believe in providing every student with an inclusive learning environment.

SJS is an inclusive educational space where students build deep relationships across differences. The culture of the students, families, and teachers are reflected in the curriculum of our school—cultural differences are celebrated, and we are intentionally integrated. A key structure that we use to cultivate these community bonds is Crew, the advisory program at the core of the EL Education model. Crews are diverse teams of students and teachers who work together during daily sessions to build and sustain the relationships and habits that are the strong foundation of a social-emotional learning environment. Crew creates an intentional culture where every student is known, and where every member of the community is a vital part of the whole—EL Education describes this interconnected support by saying that “there are no passengers, only crew.”

Core Belief #3: We believe that effective educational systems are design-oriented and iterative.

SJS believes that students should engage in work that is meaningful, active, and rooted in problem-solving that contributes to a better world. Students engage with the world as active learners. They see the world as a process and not a product. As such, they feel more empowered to change their reality. To do this, the process through which students learn must be centered around problem-solving.

Academic Approach: SJS uses an educational model that uniquely blends rigorous academic instruction with learning expeditions that are rooted in social justice and liberatory design thinking. The Social Justice School creates an educational space where students engage critically across differences with the world and interrupt systems of inequality toward designing equitable systems with equal outcomes: liberation for all and a non-hierarchical society. Our instructional approach is rooted in four key elements:

- **Crew:** We are Crew, not passengers. Crew is a highly-successful advisory component of EL Education (an expeditionary learning curriculum based on projects and

hands-on application of learning). A crucial part of our program is that “every student is known.” We know students are more likely to be successful if they have an adult they feel they can trust to guide them with academics, social, and emotional challenges. Every scholar-activist is paired with an educator who is their Crew leader until they graduate. Crew leaders are responsible for making connections with the children and their families and monitoring their academic, social, and emotional progress. To ensure this, Crew leaders serve as the primary point of contact for families. Crews are intentionally diverse based on gender, race, disability, and language. Students view their Crew as their team working together to achieve collective liberation. Crews meet daily to support their learning and growth.

- **Rigorous Academic Instruction:** The cornerstone of our instructional model is the adoption of standards-aligned curricula that is evidence-based and focuses on problem-solving, application of learning, and the production of high-quality work. We begin with adopting Common Core standards and craft instruction that explicitly teaches students the skills needed to become successful graduates, disruptors of inequity, and social change agents. In this learning environment, students are supported to do far more than they think they can. Teachers expect and demand excellence and teach in ways that enable students to learn deeply, surpass standards, grow intellectually, and produce high-quality work.
- **Learning Expeditions focused on Social Justice:** All of our students participate in Learning Expeditions rooted in social justice. Students gain knowledge and skills by working for an extended period to investigate and respond to an engaging and complex question, problem, or challenge. The sustained, interdisciplinary exploration of a complex problem that is the hallmark of expeditionary learning is ideal for understanding social justice. It allows students to examine real social issues through multiple lenses and develop open-ended solutions that meet real people's needs. The problems we explore are specific to our local community.
- **Liberatory Design Thinking Class:** In our Liberatory Design Thinking class, our scholar-activists can identify and challenge power, privilege, and inequity. Drawing on civil rights leaders' experiences, they imagine what is possible using our Liberatory Design Lab, our social justice makerspace, to prototype and test solutions in our local community. The Liberation Design Lab incorporates the philosophy of liberatory design thinking. Liberatory Design Thinking (LDT) is an innovation on

traditional design thinking that adds in the notion that design should be for liberation, design should be collective, and design should address issues of bias and prejudice that are often in the minds of those who see themselves as designers. Our scholar-activists tackle real-world problems of equity and social justice in their communities using the LDT process. Currently, our physical Social Justice Makerspace includes two 3D printers, a screenprinting/cutting station, and a button maker lab. When it fully comes to fruition, the Lab will also have a podcasting station, woodcutting tools, digital cameras, and various other tech tools to allow students to build prototypes of solutions they design.

Family Engagement

The Social Justice School believes that family and community engagement are at the heart of our mission and our deep commitment to social justice. At our core, we choose to intentionally engage our families in a variety of different ways.

- **Celebrations:** SJS coordinated events in celebration of Black History Month, Latinx Heritage Month, Women's History Month, and Asian-Pacific Islander History Month.
- **Whole Family Supports:** SJS secured several partnerships to provide healthy meals to families throughout the school year, and during the Thanksgiving and Winter Holidays.
- **Empathy Interviews:** SJS conducted several wellness checks for all of our families. We used the results of our empathy interviews in order to engage families and to get their feedback.
- **Weekly Newsletter:** SJS sent home a weekly newsletter to all families. The newsletters contained critical information regarding upcoming events, and assessments.

School Performance:

The mission of Social Justice School is to catalyze an integrated community of scholar-activists who are designers of a more just world. To that end, we measure our progress towards our mission in two ways that are essential to our school. The first is our Student Led Conferences and the second is Social Justice Learning Expeditions. SJS is meeting our goals as measured by our progress towards our mission specific goals.

SJS adopted the PMF as goals. However, DC PCSB did not produce PMD results in the 2022-2023 SY.

Performance and Progress:

Student Led Conferences: Self-Advocacy is an essential component of our instructional model. One way in which we measure our progress towards increasing the capacity of our scholar-activists to become self-advocates is through our Student Led Conferences (SLCs). SLCs are held three times a year. SLCs center students, not teachers. Students are expected to bring several artifacts that demonstrate their successes and challenges in the following areas: knowledge and skills, and habits of character. Students articulate their strengths and weaknesses and work with their families to make a plan to improve their performance in those areas.

SJS set a goal of having 80% of our scholar-activists participate in a SLC. Last school year, 100% of our scholar-activists participated in a SLC.

Social Justice Learning Expeditions: Problem solving is another essential component of our instructional model. One way in which we measure our progress towards increasing the capacity of our students to become problem solvers is through our learning expeditions that are rooted in social justice

SJS set a goal of having 80% of our scholar-activists participate in a Social Justice Learning Expedition. Last school year, 100% of our scholar-activists participated in a Social Justice Learning Expedition.

PARCC Performance (ELA)

3+

In ELA, 52% of our scholar-activists scored a 3+ on the PARCC Assessment. In 5th Grade, 30% of our scholar-activists scored a 3+ on the PARCC Assessment. In 6th grade, 64% of our scholar-activists earned a 3+ on the PARCC Assessment. In 7th grade, 57% of our scholar-activists earned a 3+ on the PARCC Assessment. In 8th grade, 49% of our scholar-activists earned a 3+ on the PARCC Assessment.

4+

In ELA, 16% of our scholar-activists scored a 4+ on the PARCC Assessment. In 5th Grade, none of our scholar-activists scored a 4+ on the PARCC Assessment. In 6th grade, 41% of our scholar-activists earned a 4+ on the PARCC Assessment. In 7th grade, 30% of our scholar-activists earned a 4+ on the PARCC Assessment. In 8th grade, 14% of our scholar-activists earned a 4+ on the PARCC Assessment.

PARCC Performance (Math)

3+

In Math, 25% of our scholar-activists scored a 3+ on the PARCC Assessment. In 5th Grade, 30% of our scholar-activists scored a 3+ on the PARCC Assessment. In 6th grade, 21 % of our scholar-activists earned a 3+ on the PARCC Assessment. In 7th grade, 30% of our scholar-activists earned a 3+ on the PARCC Assessment. In 8th grade, 22 % of our scholar-activists earned a 3+ on the PARCC Assessment.

4+

In Math, 3% of our scholar-activists scored a 4+ on the PARCC Assessment. In 5th Grade, 10% of our scholar-activists scored a 4+ on the PARCC Assessment. In 6th grade, 8% of our scholar-activists earned a 4+ on the PARCC Assessment. In 7th grade, 7% of our scholar-activists earned a 4+ on the PARCC Assessment. In 8th grade, 8 % of our scholar-activists earned a 4+ on the PARCC Assessment.

Other Data Measured: Our scholar-activists took part in the NWEA MAP Assessment during the 2022 school year. In 2022, 64% of our scholar-activists scored at 50th percentile or met their growth goal in English Language Arts (ELA). In addition, SJS' reading growth was 5% higher than the national pre-pandemic average. SJS also saw growth in Math and ELA over time. Lastly, our scholar-activists with disabilities had more reading growth than their non-disabled peers. And, our Hispanic scholar-activists had a significant increase in their growth scores on the NWEA MAP Assessment.

Unique Accomplishments:

Key Performance Highlights:

During the academic years 2021-2022 and 2022-2023, we have witnessed remarkable growth and achievement among our scholar-activists:

ELA

- The Social Justice School achieved a remarkable 15-point increase in the percentage of students scoring at Level 3 or higher from SY21-22 to SY22-23.
- We are equally proud of the 11-point increase in the percentage of students achieving Level 4 or higher during the same period.

Students who took the PARCC Assessment in both SY21-22 and SY22-23 demonstrated improvement in both ELA and Math scores compared to the previous year. Across all student groups, students at the Social Justice School who tested in both SY21-22 and SY22-23 improved their score from the previous year in both ELA and in Math. Social Justice School had the second highest growth (3+) in MS (6-8) for students designated at-risk. And, Social Justice School had the third highest growth (4+) in MS (charter sector) for scholar-activists designated at risk. Notably, Growth-to-Proficiency scores are particularly high in both ELA and Math, underscoring our scholar-activists' continuous growth and progress toward higher proficiency levels. In addition, our scholar-activists made more growth in Math and ELA than their peers across both sectors.

During the 2022-2023 school year, SJS earned several awards and recognitions this school year.

- SJS was awarded several grants to support the development and expansion of their innovative programming. Specifically, SJS has been awarded grants from the following organizations: New Leaders Roberts Award, New Schools Venture Fund, Summer Boost Grant, and Department of Recreation grant

**List of Donors:**

The following individuals or organizations have donated \$500 or more to Social Justice PCS between July 1, 2022 and June 30, 2023:

- New Schools Venture Fund
- Education Forward
- CityBridge Education
- Aaron Stallworth
- Tammy Tuck
- Charles Moore
